# Neurodiverse South Project

## What is the Neurodiverse South Project?

The neurodiversity south resource catalogue is designed to offer support to children and adults with neurodiverse needs, learning difficulties, disabilities, or complex needs.

Shared throughout the library branches in South Dublin County, this specialised collection of resources can be accessed free of charge in the library branches and be borrowed by joining any South Dublin County library branch.

Items in the catalogue can be requested by contacting your local branch either by phone or email and collected at your local library, when available.

Membership is free to any individual who lives in South Dublin County. Terms and conditions of use apply.

For up-to-date details of future talks and events relating to the Neurodiverse South project please email us and ask to join the mailing list at [neurodiversitysouth@sdublincoco.ie](mailto:neurodiversitysouth@sdublincoco.ie)

Attendance at all the events is free of charge and open to everyone but advance booking is required.

Please contact the library where the talk is happening to book your place.

The items in this catalogue were purchased with support from the Community Recognition Fund and the Department of Rural and Community Development.

- Teachers or Special Needs Assistants must supply a referral letter from their school principal to register to borrow on behalf of the school.
- In the interests of Health & Safety, please inform staff if equipment is incomplete or faulty.
- Library staff can assist users of this service, but cannot make recommendations on equipment.
- Children and adults using the equipment should be monitored at all times.
- Toys & equipment may vary slightly from the photographs in this catalogue but will function in the same way.
- To ensure availability, please book the item you request in advance by phone or email.
- Contact details for your local branch can be found at the back of this catalogue or at [www.southdublinlibraries.ie](http://www.southdublinlibraries.ie)
- Items in this catalogue are current at time of publication (2023) but some items may have been withdrawn or replaced.

## Core Developmental Aids

**These items will be available from all our main branches.  
Contact details for our branches can be found at the back of  
this catalogue**

# Core Developmental Aids

## Peanut / Physio Roll (40cm)

Physio rolls are easier to use than traditional gym balls as most of the movement is limited to forward and back, providing greater stability than a round ball. Also the saddle shape makes it easy to straddle, sit on or roll over.

### Promotes:

- Balance
- Gross Motor Skills

## Peanut / Physio Roll (55cm)

Green physio roll, 55cm diameter, 90cm length. Stable movement for balance, gross motor skills, and core strength. Suitable for up to 120kg. Use under adult supervision.

### Promotes:

- Balance
- Gross Motor Skills

## Fun Deck - Therapy Ball Activities

The Therapy Ball Activities Fun Deck offers 60 creative activities to address therapeutic goals like strength, motor planning, and sensory input. Categorized by sitting, prone, standing, and stretching exercises, each card provides illustrations and instructions.

### Promotes:

- Gross Motor Skills
- Sensory Input

## Movin' Sit Cushion Junior

The Movin' Sit Air Cushion is a versatile inflatable cushion that satisfies the sensory need for movement in children. With a smooth and bumpy side, it helps improve concentration and posture.

### Promotes:

- Concentration
- Posture

## Core Disk

The inflatable CoreDisk cushion is a versatile tool that promotes movement, balance, and sensory awareness. It can be used as a seat cushion for fidgeting, a stepping stone for balance training, or a tactile surface for sensory exploration and fine motor strengthening.

### Promotes:

- Balance

## Plastic Scooter Board

Scooter boards are excellent tools for developing upper body and core strength, improving motor planning, and incorporating them into a sensory diet. The Fun Deck-Scooter Board Activities (code Fun015) offers 54 illustrated ideas for utilizing scooter boards, sold separately.

### Promotes:

- Balance
- Core Strength

## Wooden Scooter Board

The Wooden Scooter Board is an excellent tool for developing upper body and core strength, improving motor planning, and incorporating them into a sensory diet. It is essential to consult with your therapist to choose the most suitable scooter board for your child or pupil.

### Promotes:

- Balance
- Core Strength

## Fun Deck - Scooter Board Activities

The Scooter Board Activities Fun Deck offers 54 engaging and therapeutic activities to address a variety of therapy goals. These activities target upper body and core strength, motor planning, visual perceptual skills, fine motor skills, and sensory input. Each card provides instructions, setup materials, therapeutic benefits, and tips for using the scooter board.

### Promotes:

- Balance
- Core Strength

# Core Developmental Aids

## Wooden Writing Slope

The extra-wide Wooden Writing Slope is a valuable addition to any classroom, allowing children to work and write at an optimal angle. The slippery surface encourages the use of both hands - one to hold the paper in place and the other to write - while a silicone ridge prevents papers or books from sliding off.

### Promotes:

- Fine Motor Skills

## Pencil Grip Sample Set

The Pencil Grip Sample Set offers 15 different pencil grips, designed for smaller hands and suitable for ages up to 14 years old. The set includes a variety of grips, such as the Butter Grip, Egg Pencil Grip, Ring Grip and many many more.

### Promotes:

- Fine Motor Skills

## Fantacolour Junior

The Fantacolor Junior is a fun and educational mosaic activity set suitable for ages +2 years.. Children can match colours on the pattern cards using the pegs to create their own unique designs. This toy encourages creativity, hand-eye coordination, fine motor skills, and hand dexterity in young children.

### Promotes:

- Creativity
- Fine Motor Skills

## Pegboard - Mixed Sizes

The Mixed Sizes Pegboard is a creative activity set that includes 300 pegs in three different sizes: 10mm, 15mm, and 20mm. It is suitable for children aged 4 years and above. The set offers endless possibilities for imaginative and artistic play, allowing kids to create unique designs and patterns.

### Promotes:

- Imaginative Play

## Fine Motor Olympics Activity Cards

The Activity Cards are a valuable resource featuring colour photographs of children's hands performing tasks to demonstrate hand function effectively. These cards offer a structured program to address fine motor skill difficulties in students.

### Promotes:

- Motor Skills

## Essential Scissor Kit

The Essential Scissors Kit is a comprehensive set of top-selling scissors designed to aid children in mainstream settings with scissor skill development. Guidance notes are also provided. The scissors range from Mini Easi-Grip® to Dual Control Teaching scissors, catering to various needs. Suitable for ages 3 years and above, always to be used under adult supervision.

### Promotes:

- Balance
- Core Strength

## Balance Board - Maze

The maze on this balance board adds an extra challenge, making it harder than a standard balance board. The board comes with 3 balls and helps improve coordination, rhythm, auditory and visual processing, and motor coordination in children with sensory challenges. The semi-sphere fulcrum allows the board to pivot in all directions, engaging muscles not exercised by rocker boards.

### Promotes:

- Coordination
- Core Strength

## Spike the Fine Motor Hedgehog

Spike the Hedgehog is a fantastic early learning toy for toddlers. With this hedgehog-themed set, children can develop essential skills. They practice fine motor skills by inserting and removing Spike's quills.

### Promotes:

- Fine Motor Skills

# Core Developmental Aids

## Egg Bus

The Hide & Squeak® Eggventures Egg Bus is a delightful push-along toy that sparks imaginative play for toddlers. The bus has openable compartments for sorting and matching the colourful eggs. It's perfect for developing motor skills, problem-solving abilities, and logic

### Promotes:

- Fine Motor Skills
- Problem Solving Skills

## Pound & Roll

The Battat Pound & Roll is an exciting cause and effect toy that brings endless fun to toddlers. With four brightly coloured balls and matching holes, kids use the mallet to pound the balls into the twisty racecourse, watching them roll and exit into the base. This engaging activity teaches colour matching, cause and effect, and improves hand-eye coordination.

### Promotes:

- Hand-Eye Coordination

## Latches Board

The Latches Board is an educational wooden play board designed to engage and entertain children while building their fine motor skills. It features various locks, latches, hooks, and clasps that kids can undo to swing open numbered doors and reveal pictures beneath.

### Promotes:

- Fine Motor Skills

## Peggy Bricks

This game offers easy assembly and unlimited combinations, allowing children to construct the craziest vehicles. It includes 100 pieces and comes with an activity guide featuring different models to copy. This set is an excellent resource for developing a child's creativity and ensuring hours of amusement and fun.

### Promotes:

- Imaginative Play

## Lacing Cheese - Wood

The Lacing Cheese toy is made of natural wood and offers an engaging activity for toddlers to develop and improve their fine motor skills. With holes resembling cheese, children can use the provided lace to plug the holes, simulating the action of preventing a mouse from getting through.

### Promotes:

- Fine Motor Skills

## Lacing Set

The Lacing set is a fun and educational activity for children aged 3 years and above. It includes thick plastic object silhouettes that can be used for sewing and as stencils for drawing and colouring. It also enhances pattern recognition, sequencing, sorting, and lacing abilities in young learners.

### Promotes:

- Fine Motor Skills

## Stack & Lace Caterpillar

The Stacking & Lacing Caterpillar is a fun and educational toy that children will adore. They can learn to count using the colourful rings, either by colour or by stacking them. Each ring can also be used as a wooden bead for a lacing activity, with the caterpillar's head, nose, or tail serving as the lacing stick.

### Promotes:

- Coordination
- Fine Motor Skills

## Junior Engineer

The Junior Engineer set consists of 79 pieces and 1 activity guide, providing endless possibilities for assembly and play. It encourages imaginative and creative play, while also developing reasoning, spatial orientation, and fine motor skills. A great educational and fun toy for young children to explore and learn through play.

### Promotes:

- Fine Motor Skills
- Reasoning

## Core Developmental Aids

### Animatch

The Animatch construction set offers 31 pieces with bodies, heads, legs, tails, and crests, allowing children to create adorable and colourful animals. This engaging toy provides hours of fun while fostering important cognitive and motor skills in children.

#### Promotes:

- Fine Motor Skills
- Problem Solving Skills

### Thinking Toys Tactile Ball Box

The Thinking Toys Tactile Balls box offers a diverse collection of 14 tactile balls with unique textures, neatly stored in a durable container.

#### Promotes:

- Hand-Eye Coordination
- Fine Motor Skills

### Squigz Starter Set

The Squigz Starter Set is an innovative and lively toy that offers endless possibilities for creativity and play. The set includes 22 pieces in multiple colours, featuring a new Suction Construction design that allows them to connect to each other and stick to any solid, non-porous surface.

#### Promotes:

- Fine Motor Skills

### Rock 'n' Gem Surprise

Rock 'n' Gem Surprise is an exciting and educational toy that engages children in a fun and mess-free exploration of gems and geology. The set introduces kids to basic STEM and geology concepts while providing endless play possibilities as the geodes can be cracked open and reassembled multiple times.

#### Promotes:

- Matching Skills
- Fine Motor Skills

# Sensory Toys

Sensory toys are designed to stimulate and engage one or more of the senses, including touch, sight, sound, and sometimes taste or smell.

# Sensory Toys

## Skoog

Unleash your inner rockstar with the Skoog 2.0 Tactile Musical Interface. Its robust and accessible design is ideal for kids. There are 4 pads you can squeeze, tap or twist. There is also a suction mount which helps you to secure the Skoog 2.0 in place.

### Promotes:

- Fine Motor Skills
- Sensory Stimulation

## Dancing Penguin Switch Adapted

This adorable Dancing Penguin enthusiastically waddles around, merrily flapping his wings and making sweet, braying squeaks. He has soft downy feathers that are lovely to stroke and his big eyes look up at you with a mixture of curiosity and adoration.

### Promotes

- Fine Motor Skills
- Relieves Tension and Stress

## Light Up Tactile Glow Spheres

A set of light-up, textured balls with intricate designs, that can be used for mark-marking, fine motor skills and calming activities. They are a great resource for children improving hand-eye coordination as children manipulate the spheres around.

### Promotes:

- Hand Eye Coordination
- Visual Sense
- Fine Motor Skills

## Light Up Twist and Turn Spinning Tops

Children of all ages will enjoy using this innovative, rechargeable and fascinating collection of three rotating tops which illuminate when spun. A delightful and unique ICT resource that has been created to be developmentally aligned to children's interests and needs.

### Promotes:

- Fine Motor Skills
- Sensory Stimulation

# Sensory Toys

## Glow Pebbles

A set of 12 rechargeable illuminated pebbles that can be stacked and rolled for engaging sensory learning. A great resource for sensory rooms and a novel way of encouraging children to experiment and explore.

### Promotes

- Fine Motor Skills
- Visual Sense

## Mystery Sensory Balls (Set of 6)

Sensory Reflective Mystery Balls are tactile and reflective and all six balls have their own mysterious and individual characteristics. Some wobble when rolled, or twist and turn in different directions. A great way to inspire learning through play and encourage imagination and language skills.

### Promotes

- Hand Eye Coordination
- Fine Motor Skills
- Sensory Stimulation

## UV Kit Medium

This medium-sized UV-kit contains a variety of glow-in-the-dark products and a UV torch. When exposed to the UV torch in the dark, these products will fluoresce, creating a stimulating visual effect, giving children an entirely new understanding of light and colour.

### Promotes

- Visual Sense
- Hand Eye Coordination

## Mini Paddle Wheel

A colourful paddle wheel on a sturdy base. Encourages hand dexterity and colour recognition while creating an interesting visual focus in toddlers & young children.

### Promotes

- Fine Motor Skills
- Hand Eye Coordination
- Colour Recognition

## Sensory Toys

### Slow Moves Sloth

Smooth Moves Sloth is a perfect playtime pal for singing, clapping, moving and listening! Use two switches to activate ABCs and 123s, Opposites and Games.

#### Promotes

- Numeracy/Literacy Skills
- Cause and Effect

### Diffraction Tube Ladder

Each of the five tube is a different colour, is highly reflective and turns with a light touch. Can be used in two positions, upright on base or with rollers in a more horizontal position.

#### Promotes

- Hand Eye Coordination

# Fine Motor Skills

Fine motor skills play a crucial role in the growth and progress of neurodiverse children, aiding them in refining their dexterity, hand-eye coordination, and overall manual control. By engaging in activities specifically designed to enhance fine motor skills, children can embark on a journey of self-discovery, empowerment, and increased independence.

# Fine Motor Skills

## Magnetic Owls Mix & Match Game

This set is all about creative mixing, matching, and copying. With a variety of vibrant and colourful owl pieces, your little one can explore endless combinations.

### Promotes

- Fine Motor Skills
- Hand-eye coordination

## Hexiflex 1250 piece set

Unleash creativity and fine motor skills with the Hexiflex Set. 1250 vibrant pieces in 12 colours for endless possibilities. Build 2D/3D models with 6-sided hexagonal shapes. Interlocking click design ensures sturdy constructions. Includes building instructions

### Promotes

- Hand Eye Coordination

## Learning Frame - Lacing Ribbons

These wooden frames feature two pieces of cloth attached to the sides. By fastening the cloth together at the centre, children can develop their fine motor skills and gain confidence in dressing themselves. Each frame focuses on a different fastening method, such as ribbons, buttons, or snaps, offering a variety of learning opportunities.

### Promotes

- Handling Skills
- Hand Eye Coordination

## Sorting Box - Wood

This innovative sorting game features a durable wooden box with a removable lid and 6 slots. It includes 8 category boards with 6 pictures each, along with 6 matching wooden cards per board (48 cards total). Suitable for ages 3+, this fun and educational toy encourages picture recognition, object identification, number and shape learning, and improves hand-eye coordination.

### Promotes

- Image Recognition
- Hand-Eye Coordination

# Fine Motor Skills

## Towering Beads

The set includes activity cards that engage children in sorting and stacking activities, helping them discover basic concepts such as height, shape, colours, and balance. With its focus on logical thinking, sequences, and patterns, this ecological game stimulates cognitive development while promoting a sustainable mindset.

### Promotes

- Fine Motor Skills
- Cognitive Development

## Pegboard with 20mm Pegs

This engaging game promotes the development of visual-motor coordination, creativity, spatial orientation, and colour discrimination. Sharpen your concentration and attention skills while having fun with this educational mosaic game.

### Promotes

- Fine Motor Skills
- Cognitive Development

## Sorting Tree

This educational toy is designed to teach colour and shape matching while reinforcing fine motor skills. The set includes a wooden tree-like base with colour-coded holes and 6 colourful screws in two different sizes. Children can match the screws by size and colour and screw them into the corresponding holes.

### Promotes

- Motor Skills
- Matching Skills

## Daisy Box

This toy is specially designed with soft rounded forms for easy and fun play for babies and toddlers. They can fill the multicolour chunky pegs into the daisy-shaped board or stack them to build exciting towers.

### Promotes

- Visual Perception
- Hand-Eye Coordination

# Fine Motor Skills

## Pegboard with 10mm Pegs

This engaging game promotes the development of visual-motor coordination, creativity, spatial orientation, and colour discrimination. It encourages critical thinking and learning of numbers, letters, shapes, and colours.

### Promotes

- Concentration

## Twist & Turn Puzzle

Introduce early learners to shapes, colours, and textures with this highly educational wooden toy. Twist and Turn the brightly coloured wooden squares, triangles, and circles to slide them down three sturdy pegs. But here's the twist: the squares must be slid down in size order, from biggest to smallest!

### Promotes

- Fine Motor Skills
- Concentration

## ECO Activity Nuts and Bolts

This educational toy promotes manual dexterity and visual-motor coordination through the action of screwing and unscrewing. Made from durable and highly resistant eco-friendly materials, these nuts and bolts are designed to withstand playtime while being environmentally conscious.

### Promotes

- Fine Motor Skills
- Coordination

## Finn the Fine Motor Fish

Introducing Finn the Fine Motor Fish, the perfect companion for building hand strength and fine motor skills in toddlers. This colourful fish toy includes 10 grip-and-pull scales, a base, and a shell. The indented surfaces of the scales make it easy for kids to develop their pincer grasp and hand strength. Turning the scales also helps develop wrist rotation.

### Promotes

- Colour Matching Skills

# Fine Motor Skills

## Twisty Droppers

This set of four droppers is designed to encourage curiosity and discovery in young learners. As children engage with the droppers, they develop hand strength and fine motor skills, laying a foundation for future dexterity. The droppers are ideally sized for little hands, ensuring a comfortable grip.

### Promotes

- Fine Motor Skills

## Lacing by Numbers - Construction

Develop counting and fine motor skills with the Lacing By Numbers – Construction game! This engaging set includes three construction vehicle lacing pictures and three different coloured laces. Children can thread the laces through the holes, following the numbers in order to reveal a dinosaur picture.

### Promotes

- Fine Motor Skills

## Lacing by Numbers - Dinosaur

Develop counting and fine motor skills with the Lacing By Numbers – Dinosaur game! This exciting set includes three dinosaur lacing pictures and three different coloured laces. Children can thread the laces through the holes, following the numbers in order to reveal a dinosaur picture.

### Promotes

- Counting Skills
- Fine Motor Skills

## Stack & Lace Caterpillar

This colourful caterpillar offers multiple learning opportunities. Children can practice counting by colour or by stacking the rings. Each ring can also be used as a chunky wooden bead for lacing activities, using the caterpillar's nose or tail as a lacing stick. The toy comes with 1 lacing string for added fun.

### Promotes

- Fine Motor Skills

# Fine Motor Skills

## Filo

This set includes 8 double-sided cards with colourful designs to replicate, along with coloured laces, a lacing pen, and a Filo board. With Filo, you can easily trace vibrant designs with laces and quickly undo them to create new ones.

### Promotes

- Fine Motor Skills

## Tobbles Neo

Experience the vibrant colours and tactile delight of Tobbles Neo! This stacking and balancing toy engages young minds in endless exploration. With its unique grippable texture and playful curves, Tobbles Neo offers a truly satisfying tactile experience.

### Promotes

- Fine Motor Skills

## Lock & Latch Board

This wooden play board doubles as an educational toy, offering endless fun and learning opportunities. Children can unlatch, open the hinged panels, and unveil delightful pictures beneath. They can engage in seek-and-find activities, race to open and close the doors, or create imaginative stories inspired by the revealed images.

### Promotes

- Fine Motor Skills

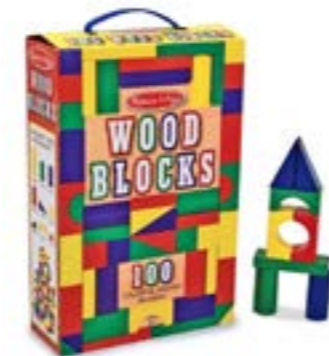

## Straw & Connectors Construction Set

Whether you want to build a boat, design a rocket, create a raft, or construct a fort, this set provides endless building possibilities. Children can work alone, in pairs, in groups, or with parents to bring their creative ideas to life. The ingenious design of the set makes it intuitively easy to use.

### Promotes

- Fine Motor Skills
- Creativity

# Fine Motor Skills

## 100 Wooden Block Set

Available in four vibrant colours and nine different shapes, children will delight in stacking, building, and knocking down in countless combinations. As they engage in this hands-on play, they'll develop fine motor skills, dexterity, colour and shape recognition, and pre-math skills. This versatile block set is a valuable tool for learning and fostering creativity in young minds.

### Promotes

- Fine Motor Skills
- Colour and Shape Recognition

## Avalanche Fruit Stand

Step up to the exciting Fun Fruit Stand! Spin the wheel and use the jumbo tweezers to pick or place fruit, testing your steady hand and fine motor skills. This activity set is designed to develop important skills like the pincer grasp, which prepares children for handwriting. It also reinforces colour and fruit vocabulary. Ideal for teachers, specialists, and occupational therapists.

### Promotes

- Fine Motor Skills

## The Wall

Test your hand's steadiness with The Wall Game! This exciting and laughter-filled game provides hours of intense fun. The objective is simple: don't let Humpty Dumpty fall off the wall. Build up the wall and carefully place Humpty Dumpty on his perch. Suitable for 2 players, it's a thrilling challenge for all.

### Promotes

- Fine Motor Skills
- Teamwork

## Bead Maze

This captivating activity features brightly coloured beads that swoop and slide along roller-coaster wires, encouraging colour and shape recognition, as well as fine motor development. The sturdy wooden base ensures durability and stability, keeping little ones busy and entertained for hours.

### Promotes

- Fine Motor Skills
- Creativity

# Fine Motor Skills

## Chairs

Test your steady hand and creative thinking as you take turns adding chairs to the stack. With each chair added, the tension mounts and the tower grows larger. Be careful not to topple the chairs, as that will eliminate you from the game.

### Promotes

- Fine Motor Skills

## Scissors Assessment Kit

This Scissor Assessment Kit is specially designed for use by Occupational Therapists to assess clients' scissor skills and identify the most appropriate adapted scissors. The comprehensive kit includes 15 scissors, including left-hand versions where applicable, covering 10 different styles. Each scissor type is accompanied by guidance notes providing specific information.

### Promotes

- Fine Motor Skills

## ECO Activity Pins/ Pegs

Made from spruce fibres, these pegs are environmentally friendly. This excellent educational game promotes learning about shapes and colours while providing fun. It also enhances fine-motor skills, pattern recognition, sequencing, shape and colour recognition, as well as spatial orientation.

### Promotes

- Fine Motor Skills
- Shape and Colour Recognition

## ECO Beams Building Set

This construction set is an ideal tool for stimulating fine psychomotor skills, spatial vision, concentration, and perseverance. With 32 stackable and interconnected pieces, the game can be adapted to suit the progress of each child's development. The set includes a guide with 40 activities, ranging in difficulty, making it suitable for different educational levels.

### Promotes

- Fine Motor Skills
- Spatial Vision

# Fine Motor Skills

## Elefantino

Introduce shape and colour recognition with the engaging Shape-Sorting Elephant Toy! This toy fosters learning about shapes, colours, and spatial awareness while providing interactive fun.

### Promotes

- Fine Motor Skills
- Spatial Awareness

## Gears Super Building Set

Unleash imagination and creativity with the Giant Spinning Gear Building Set! This colourful tub of spinning gears encourages kids to build creatures, towers, and more. With open-ended components, there's no wrong way to build, allowing for endless construction possibilities.

### Promotes

- Fine Motor Skills
- Creativity

## Geokid - Animal Mix

Children love to interlock these delightful animals in three loveable shapes and six bright colours. Snap them together, pop them apart or build towers and chains for hours of fun. This toy will help develop fine motor skills for your child's fingers. The chunky pieces are easy to grasp and easy to clean up.

### Promotes

- Fine Motor Skills
- Colour and Shape Recognition

## Handy Scoopers

These scoopers are perfect for young learners, providing catch-and-release fun at water tables with their specially designed holes. Each scoop features a translucent design, easy-grip handle, and comes in different colour combinations. Measuring 15cm in length, they are ideal for little hands.

### Promotes

- Fine Motor Skills

# Fine Motor Skills

## Jumbo Tweezers - Set of 12

These tweezers are a valuable tool for helping children get a grip on early learning skills. They are perfect for primary science lessons, early science explorations, and sorting activities.

### Promotes

- Fine Motor Skills

## Hide & Seek Magnetic Farm

This wooden activity board features nine hinged doors, and behind each door, a colourful magnetic piece is waiting to be revealed. Children can move the magnetic pieces behind different doors for guessing and imaginative play. With its vibrant design and interactive nature, this activity board enriches a child's imagination.

### Promotes

- Guessing and Imaginative Play

## Jumbo Magnetic Construction Set

This set includes a mixture of brightly coloured magnetic chunky rods and balls that stick together in various ways, allowing for creative and simple building. The large, easy-to-handle pieces keep smaller children engaged and entertained. With super-strong magnetic connections, projects stay intact.

### Promotes

- Fine Motor Skills
- Creativity

## Learning Frame

This important learning tool consists of wooden frames with attached pieces of cloth that can be fastened together at the centre. The set includes 12 frames, each focusing on a specific skill. Once mastered, these skills translate to easier and independent clothing fastening while wearing it. Help children develop essential self-care skills with this comprehensive Dressing Frames Set.

### Promotes

- Fine Motor Skills

# Fine Motor Skills

## Octoplay Fun Pack

This set offers a bumper assortment of pieces, including flats, pegs, discs, struts, and wheel/axle parts. Create moving vehicles, structures, and more with ease as the pieces easily slot together. Whether you're a beginner or an experienced builder, the Octoplay set offers a vast array of pieces to fuel your imagination. The set also includes a guide to inspire and assist with your creations.

### Promotes

- Fine Motor Skills
- Imagination

## Pop Up Pals

This modern take on a traditional toy will captivate your toddler as they explore and interact with it. By turning the blue, pressing the green, pushing the orange, and sliding the yellow shapes, four friendly pals pop up to say hello! The excitement continues as they shut the doors and do it all over again.

### Promotes

- Fine Motor Skills
- Colour Matching

## Pop Up Toy
