Tallaght Village Enhancement Scheme - Workshop 1

Created by G. Walsh

Presented by G. Walsh

The Project

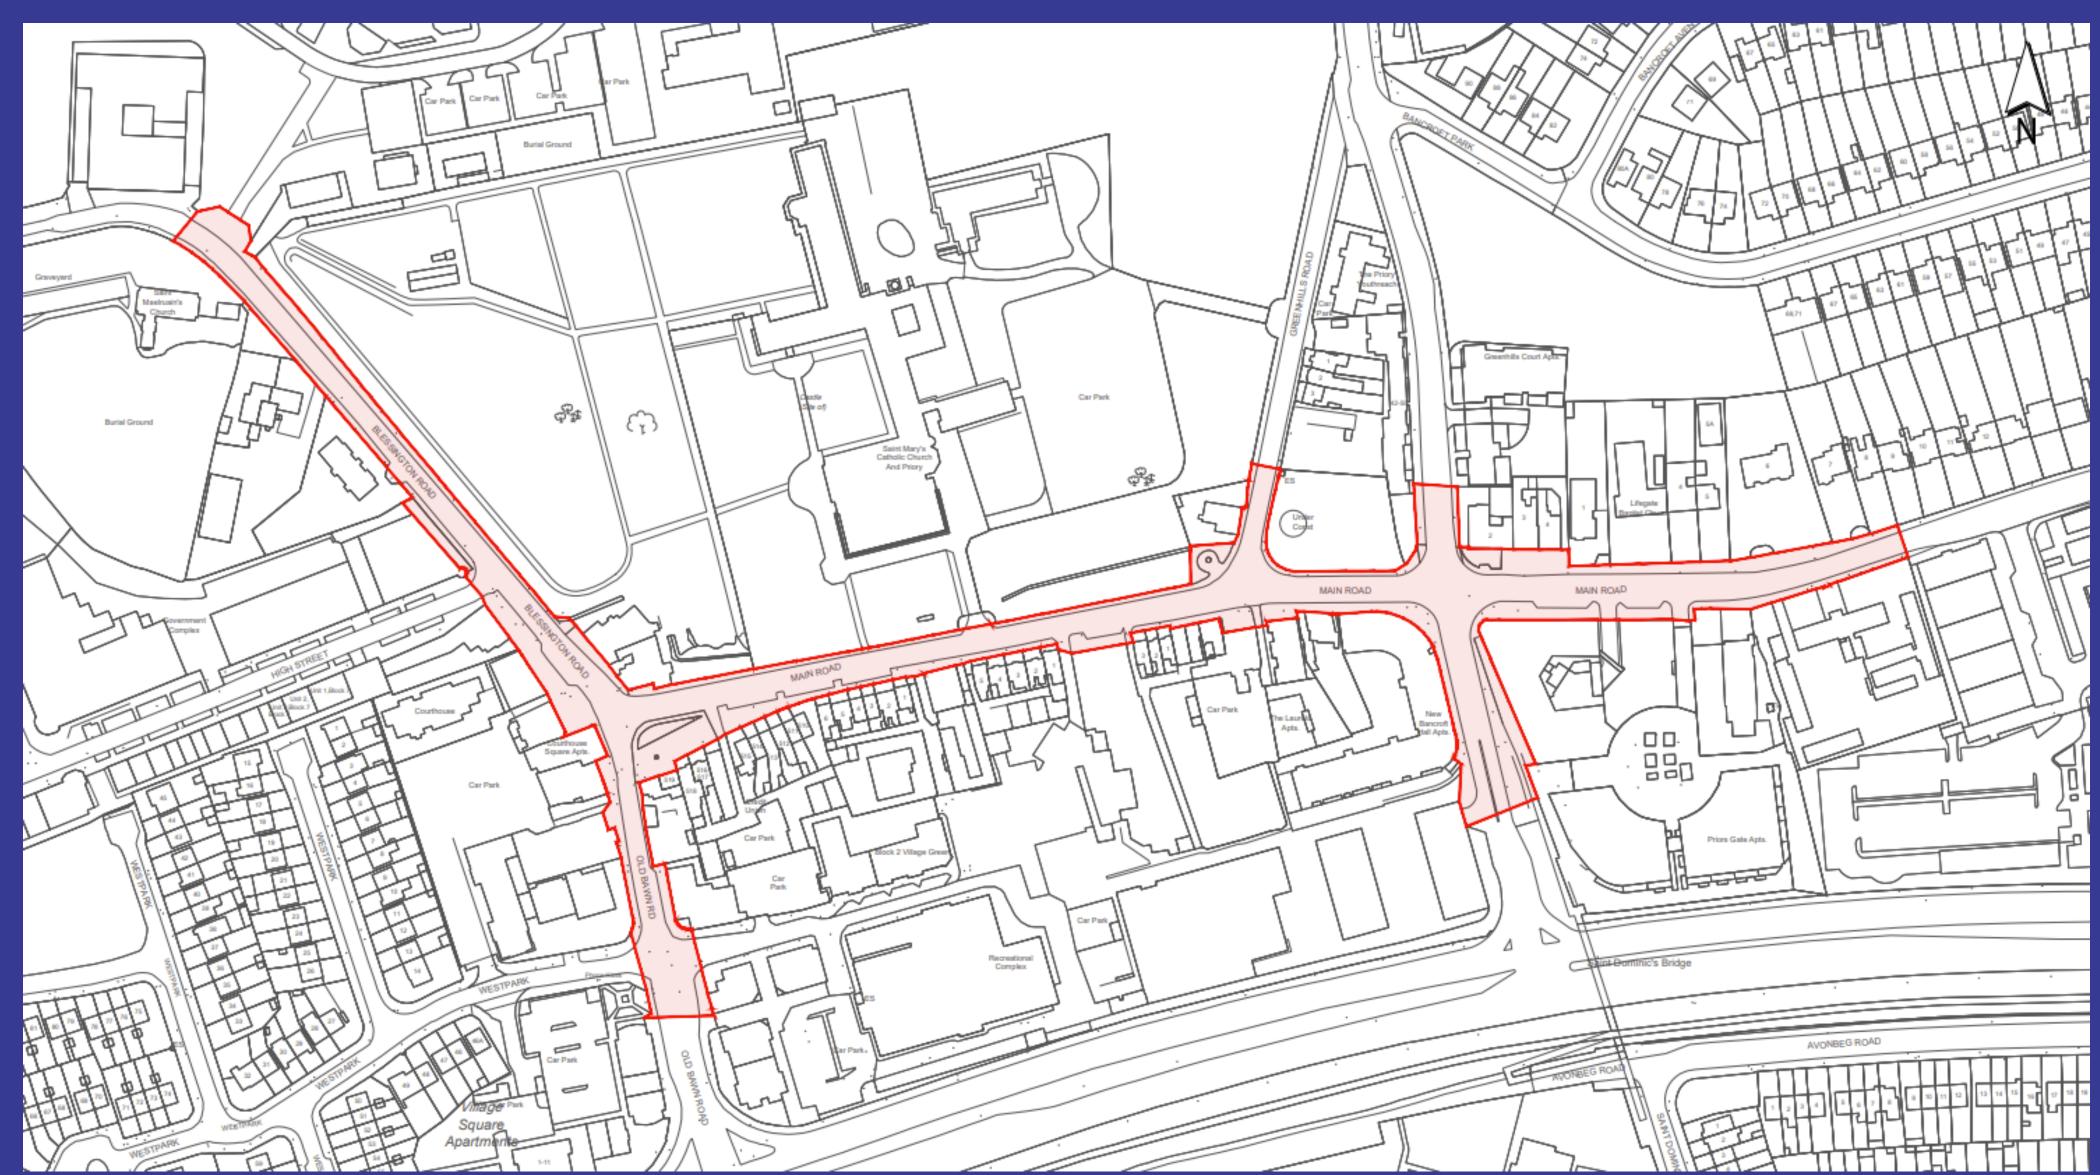

Create a safer, more attractive and people friendly environment

A quality, vibrant village which attracts business

A village that is reflective of its status as the capital of South Dublin

Tallaght and Proud

SDCC Team

Project Lead – Claire Fay

Apprentice Engineer – Joshua Mills

Consultants – Civic Engineers

Structure of Public consultation

- Public Workshop 1 Oct 13th & 14th
 Gathering information from community and stakeholders
- Preparation of 5 designs of varying levels of interventions
- Public Workshop 2 Targetting Mid Novemeber
 Five design options reviewed and commented on by community and stakeholders
- Refine the Design based on feedback
- Public Workshop 3
 Part VIII Public Consultation where proposals are presented

Why are we here

- Us to hear your views
- You to hear other peoples views

- What you like/dislike about the current village
- What would you like to see in a scheme
- What are the challenges
- What should be our priorities

What we need from you

- Engaging
- Positivity/Passion
- Open to Ideas/Concepts
- Ambitious
- Willingness to Compromise

Our Team

About Us

Civic is a team of system thinkers in the built environment.

We're creating positive impact for people, place and the planet.

Given the climate and societal change we must respond to and recognising that the environment functions as a single system, we've carefully curated a team centred around built environment engineering, alongside transport, heritage, archaeology, sustainability, and placebased consultancy.

Team Civic is united by its creative belief, bringing art and science together to solve problems. Together we're thoughtful, considerate disruptors with a clear mission - to care for and protect our climate and communities.

We are passionate about our responsibility to leave a positive legacy through our work, for neighbourhoods now and the next generation. This is reflected in the vision we have set ourselves of having a positive impact on the environment and enabling people to lead healthier and happier lives.

Our Brief

Our Brief

CIVIC

- Rebalance road space for pedestrians & cyclists
- Expand & enhance public realm and green space
- Improve connectivity and accessibility for all ages & abilities
- Simplify signage, reduce clutter, and integrate public lighting
- Support biodiversity with trees, planting & SUDS
- Provide active play, art, and community spaces
- Enable efficient parking, deliveries & EV charging
- Celebrate village character and heritage

How will we do this?

- Engage with community, businesses & stakeholders through workshops
- Develop and refine design options collaboratively
- Deliver designs through preliminary to construction stages

Our Ambition

Our Ambition

A Reimagined Village Centre

To create a **distinctive**, **people-first heart of Tallaght** — a place that reflects its heritage, supports local life, and inspires pride in the community.

We Aim To:

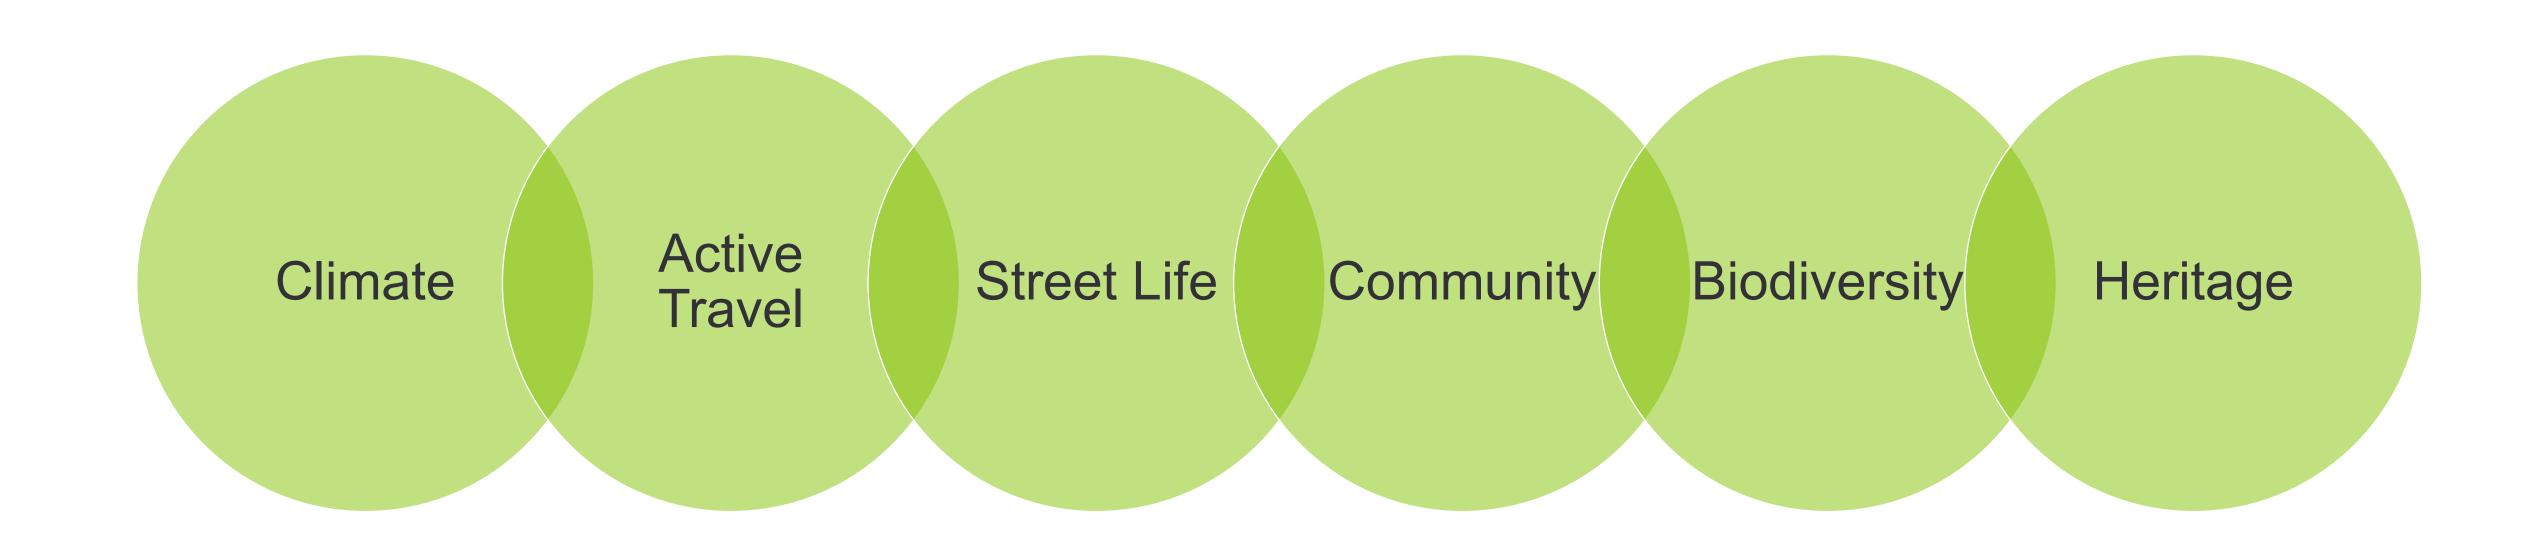

- Reclaim streets for people safer, greener, more enjoyable spaces for walking, cycling & gathering
- Support local business by improving access, visibility & vibrancy
- · Celebrate identity through quality design, landscape, and public art
- Lead by example in sustainability, accessibility, and community engagement
- **Deliver lasting value** a resilient, inclusive and beautiful village for generations

Our measure of success:

A thriving village where people choose to spend time — not just pass through.
