Introduction

Welcome to South Dublin County Council's Community Grants Scheme

This guide explains the grants available for community groups in South Dublin, the rules for getting them, and how to apply.

South Dublin County Council has been running this scheme since it was set up. Over the years, hundreds of local projects have received funding. As the county has grown, the scheme has changed to meet new needs. Today, it's one of several supports that help community development.

The goal of the scheme is to support a wide range of community activities and services. We want to make sure the limited funds available benefit as many people as possible. The scheme also focuses on keeping community centres active and sustainable.

Our Community Workers team offers strong support to local groups, along with help from other Council departments. You can find details about the scheme on the Council's website and in local newspapers.
