

## **Completed Lucan, Palmerstown Tree Maintenance Programme 2017-19**

The following is a list of roads and estates where a complete list of tree maintenance including removal or pruning of all trees that were identified as requiring works was carried out during 2017-19 period.

In addition to the planned whole estate and road programme, emergency and reactive works are carried out on trees as necessary in order to manage risks to the public. Emergency tree works will take priority over the planned programme of tree maintenance works and it should be recognised that there is an impact on progress of the planned programme.
